down from generation to generation that Solomon was the wisest man who ever lived and when one among us is called a Solomon we know his reputation for wisdom among his fellowmen is great indeed. But the sayings of Solomon are like a lot of other things handd down to us out of the past and when they are examined by modern science are found mostly silly. Take the ant, for example. One of Solomon's best known sayings is the advice he gave the shiftless and lazy people about him: "Go to the ant, thou sluggard, consider her ways and be wise. Last week the scientists of the American Museum of Natural His tory completed a 10-year study of the ant, its habits and traits. They found that only 40 per cent of the ants work hard, that 20 per cent work only between long intervals of rest, and the remaining 40 per cent wouldn't hit a lick if starvation looked them in he face. (By R. Ralph Campbell)

One of our oldest citizens, Mr. Walter, A. Thomas, who resides at 213 West Moore Avenue, had a quiet Homecoming affair last week by three of his children coming home to visit him during his illness. Those coming to visit him were; Rev. David D. Thomas, of Los Angeles, Calif., Mrs. Cleona T. Lucas, of El Centro, Calif., and Mr. Oliver S. Thomas and his son, David, of Winher, Pa., Oliver Thomas, was a member of this.

Congratulations on their nice new home in textured fabrics popular in fash ions gird interior decorating.

Of the three new fabrics, the most unusual is a soft gray tweed mixture with a blue stripe which gives the 1949 Ford interiors a freshly tailored look. It has been combined with a bolster of blue-freshment. The community wishes for him a speedy recovery.
